## CONGRESSMAN MICHAEL ARCURI

For weeks I have asked you to be our hero.

No one seems to want to really take you to task, so I will.

Our problems are monumental and you don't seem to get it!

Please use some of that out of town money that you receive and do a reprint of my questionnaire in all parts of the 24th congressional district.

Also, I ask the folks, the people who will vote you in or out in a few days, to call and demand that these questions be answered.

### TIME IS OF THE ESSENCE

- |  |                              |    |
|--|------------------------------|----|
| 1. Do you favor drilling for the good of the economy and the economic safety of the folks anywhere in the USA?   | YES                          | NO |
| 2. Are you worried that democratic demogogery will cause a cataclysmic problem this winter?  | YES                          | NO |
| 3. Can continuous \$3.70 to \$4.30 fuel continue without financially killing the middle class, working poor or retirees?   | YES                          | NO |
| 4. Will you ever fight and go against your party on behalf of the folks in the 24th district rather than being in lock-step with Nancy Pelosi's refusal to have a real energy plan?  | YES                          | NO |
| 5. Will some people in the 24th district go without heat, food or medicine this winter?  | YES                          | NO |
| 6. Is the HEAP program up and running and able to take on added applicants for fuel assistance this winter?<br>I heard they're not ready!  | YES                          | NO |
| 7. Where do you stand on illegal immigration? They're breaking this country financially and creating a medical and legal nightmare.<br>They are illegal. They "Broke the Law." They must go home!  | YES                          | NO |
| 8. Will you be in on the financial conferences in Washington, and vote to save our economy?  | YES                          | NO |
| 9. Schumer and especially Clinton and you have promised to energize Central New York's economy. To date, and this includes Congressman Boehlert's "20 years in office," you gave us promises and paltry abysmal results. Schumer called northern and Central New York, Appalachia, and Hillary promised in her last campaign major growth for New York State. Therefore, can you, Congressman, along with the group of Pelosi, Reid, Schumer and Clinton, promise the 24th congressional district 10,000 real jobs?      | YES                          | NO |
| 10. You talk about other energy, like electric automobiles. If we all go to electric cars, there is not enough electricity to plug into and charge the batteries. Do we have your assurance that in 5-10 years the power from wind can be delivered from Texas to Montana, east across the country? That calls for many new towers and lines. Remember, you're against a tower in your backyard.   | YES                          | NO |
| 11. Are you afraid of Nancy Pelosi or Harry Reid?  | YES                          | NO |
| 12. Would you vote in the next two years for any increase in taxes "of any kind"?  | YES                          | NO |
| 13. What was your salary for the year 2007?<br>And what were your charitable donations?  | \$ _____ .00<br>\$ _____ .00 |    |
| 14. Do you feel the pain of the little guy over your own gain?<br>We don't hear from you very much, Congressman.   | YES                          | NO |
| 15. Re: Social Security – The Democrats say that our Social Security dollars should not be invested in the market. Their barb this week was "just think – the markets are dropping!" The President was wrong, but you don't tell people that the Social Security system is broke. The income goes out as fast as it comes in. The government provides an IOU, and not a bonafied trust fund.<br><br>Should the younger people age 14-40 be allowed to put a percentage of their Social Security into financial equities? | YES                          | NO |
| 16. Gun Control – Can we leave on the books gun laws just as they are or do you want to tighten and restrict guns for the folks?   | YES                          | NO |
